Smart Farms

Gatton AgTech showcase

Join us for a showcase of the latest innovations in field robotics, sensors, drones, protected cropping, postharvest, cover cropping and strip tillage, and more.

This event brings together horticulture growers, agribusinesses, technology companies, consultants, researchers, and students from the Lockyer Valley, and across Queensland and Australia for a festival of technology and innovative ideas.

Featuring:

- Field robotics demos from Robotti, Farmdroid & Stout
- Postharvest displays from iTrazo & Escavox
- Protected cropping displays from DAF, Cravo & Priva
- Field AgTech and drone demos
- Expert speakers on the latest AgTech

Email GattonSmartFarm@daf.qld.gov.au for more details.
